ITALY'S ADRIATIC COAST

"The Italian regions of Marche and Abruzzo on the east coast of Italy, facing former Yugoslavia, are little-known gems which offers amazing outdoor activities in breathtaking natural landscapes. Explore one of the biggest underground caves in the world, Grotte Di Frasassi, hike through the mountains of Abruzzo National Park where you will meet bears and wolves, and dine in a traditional fishing hut hanging over the Adriatic sea."

— Matteo Della Grazia & Daniela Mencarelli, Discover Your Italy
